LIGHT ANGLES

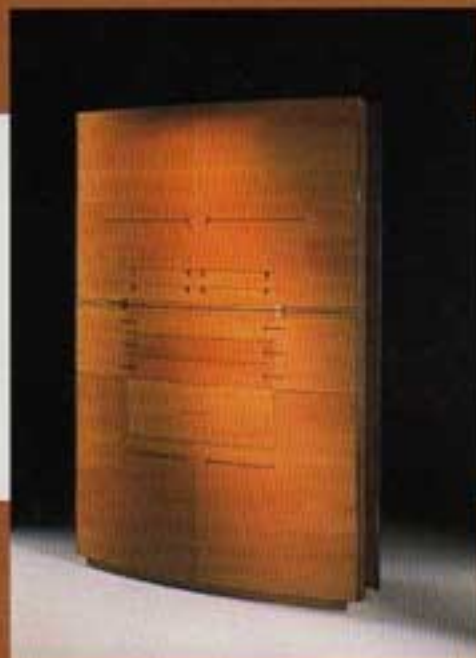

Long Light is a prism-like ceiling lamp created by Netherlands-based designer Marcel Wanders. It features a PVC shade lined with cotton and is available in 40 different colours. The lamp frame is made of metal.

HEIGHT OF ELEGANCE

There's more to this living room cupboard by Jaume Tresserra of Spain than meets the eye. Made of light walnut, it has metal fittings representing the eight Taoist symbols of happiness. The inside shelves are crescent-shaped and there are two secret compartments at the back. This award-winning design, on show at two museums, also acts as a stylish room divider.

STRETCHING EXERCISE

With their Sea View chaise longue, Ceccotti and designer Roberto Lazzeroni are breathing new life into the mahogany tradition that was so popular when it came to garden furniture back in the 1960s. This indoor lounge is covered in earth-coloured materials and rests on sturdy brass feet.
